

SENTINEL PRIME

Enterprise Proprietary Software License Agreement

Copyright © 2026
Ciprian Stefan Plesca
All Rights Reserved

1. Introduction

This Enterprise Proprietary Software License Agreement (“Agreement”) governs the access, use, viewing, evaluation, and any potential licensing of the software project known as **Sentinel Prime**, including but not limited to its source code, user interface architecture, visual assets, diagrams, documentation, conceptual frameworks, research materials, and associated files (collectively referred to as the “Software”).

The Software has been created and is owned exclusively by **Ciprian Stefan Plesca** (“Licensor”). All intellectual property rights associated with the Software remain the sole and exclusive property of the Licensor.

By accessing, viewing, cloning, downloading, copying, or otherwise interacting with the Software or any part of this repository, you (“User”, “Viewer”, or “Party”) acknowledge and agree to comply with the terms and restrictions outlined in this Agreement.

If you do not agree with the terms of this Agreement, you must immediately discontinue any access or interaction with the Software.

2. Ownership and Intellectual Property Rights

The Software and all related materials constitute proprietary intellectual property belonging exclusively to the Licensor.

This includes, without limitation:

- Source code
- Interface layouts
- Cybersecurity dashboard architecture
- Visualization systems
- Design frameworks
- Conceptual models

- Documentation
- Research descriptions
- Diagrams
- Interface animations
- Layout compositions
- UI/UX structures
- Branding and naming concepts
- Visual presentation materials

All such materials are protected by applicable **international copyright laws, intellectual property treaties, and software protection regulations**, including but not limited to:

- The Berne Convention for the Protection of Literary and Artistic Works
- The WIPO Copyright Treaty
- Applicable EU intellectual property directives
- Applicable national copyright legislation

No ownership rights are transferred under this Agreement.

3. Nature of the Repository

The Software repository may be publicly visible for the following limited purposes only:

- Academic demonstration
- Conceptual research presentation
- Portfolio showcase
- Interface design exploration
- Proof-of-concept cybersecurity visualization study

Public visibility **does not constitute permission** to use, reproduce, distribute, or commercialize the Software.

Viewing the repository **does not grant any license**, except the limited right to observe the Software for informational purposes.

4. License Grant

No license is granted by default.

The Licensor may grant limited rights only through **a separate written commercial licensing agreement**.

Unless such a written license is provided, **all rights remain strictly reserved**.

5. Strict Restrictions

Without explicit written authorization from the Licensor, the following actions are strictly prohibited:

5.1 Reproduction

Users may not:

- Copy the Software
- Duplicate the source code
- Replicate interface structures
- Extract or reuse design elements
- Reproduce diagrams or architectural concepts

5.2 Redistribution

Users may not:

- Upload the Software elsewhere
- Mirror the repository
- Share the code publicly
- Distribute modified versions
- Publish the Software on alternative platforms

5.3 Derivative Works

Users may not:

- Modify the Software
- Create derivative software
- Adapt the interface architecture
- Reuse UI/UX components
- Reconstruct the system concept

5.4 Reverse Engineering

Users may not:

- Reverse engineer the code
- Decompile the structure
- Attempt to replicate internal logic
- Extract algorithms or architectural frameworks

5.5 Commercial Usage

Users may not:

- Sell the Software
- Integrate it into commercial products
- Use it in enterprise platforms
- Monetize any portion of the Software

5.6 AI Training or Dataset Usage

The Software may **not** be used:

- To train artificial intelligence models
 - As part of machine learning datasets
 - As input for automated code generation systems
-

6. Cybersecurity Interface Design Protection

The **Sentinel Prime cybersecurity dashboard architecture** represents a conceptual design framework developed as a research-oriented visualization model.

The following elements are explicitly protected:

- Interface layout structures
- Cybersecurity visualization concepts
- Modular threat intelligence panel architecture
- Interactive dashboard composition
- Cinematic interface design methodology

Unauthorized reproduction of these concepts may constitute **intellectual property infringement**, even if implemented in modified form.

7. Academic Use Limitations

Academic institutions, researchers, and students may **view** the Software strictly for informational and educational purposes.

However, the following remain prohibited:

- Copying code for research projects
- Including source code in academic repositories
- Reusing design architecture in theses or academic publications
- Publishing derivative works based on the Software

Academic citations referencing the project **must not include code or design replication**.

8. Security and Integrity Clause

Users may not attempt to:

- Exploit vulnerabilities in the Software
- Manipulate or interfere with its operation
- Circumvent security restrictions
- Extract hidden assets or protected components

Any such actions may be considered **unauthorized system interaction** and may be subject to legal enforcement.

9. Commercial Licensing

Commercial licenses may be issued at the sole discretion of the Licensor.

Commercial agreements may include:

- enterprise usage rights
- product integration permissions
- deployment licenses
- extended development rights

Commercial licensing terms must be negotiated directly with the Licensor.

For licensing inquiries or enterprise collaboration requests:

Contact:

<https://cal.com/ciprian-stefan-plesca>

10. Enforcement and Legal Remedies

Any violation of this Agreement may result in:

- termination of access rights
- copyright infringement claims
- legal enforcement under applicable intellectual property law
- civil damages and injunctive relief

The Licensor reserves the right to pursue **all available legal remedies** against unauthorized use of the Software.

11. No Warranty

The Software is provided “**as is**” without warranty of any kind.

The Licensor makes no guarantees regarding:

- functionality
- security
- compatibility
- reliability
- suitability for production use

The Software exists primarily as a **conceptual demonstration and research prototype**.

12. Limitation of Liability

Under no circumstances shall the Licensor be liable for any:

- direct damages
- indirect damages
- incidental damages
- consequential damages
- financial losses
- system failures

arising from the use or attempted use of the Software.

13. Governing Law

This Agreement shall be governed by and interpreted in accordance with applicable international intellectual property law and relevant jurisdictional regulations.

14. Entire Agreement

This document constitutes the **entire agreement** governing the use of the Software.

No modification of this Agreement shall be valid unless provided **in writing by the Licensor**.
